**The Middle School Experience:
*Through The Eyes Of Rosa Students***

**Thoughts About Middle School
At Rosa**

By Hunter West

"I've made new friendships. Meeting new people and learning about their interests (has actually been) exciting. Middle School (has given) me an opportunity to reach out and to make new friends. At the start of the school year, the only people I knew were from my old school. Now, I know the entire LC!

To sum it up, Middle School has been an extraordinary experience. I've always imagined Middle School in the dramatic way on TV with killer bullies, popularity issues and crazy teachers. Now, I see it in a whole new light. Sure the paper, quizzes, tests, lockers, homework and friends factor into Middle School, but I still enjoy my time here as a Rosian, Rosa Raptor or whatever. I feel a part of something bigger, which is why I can say, go Rosa Raptors!"

**Thoughts About Bridge Tutoring and
Mentoring:
A Special Program/Service Provided by
Outstanding Students from Cherry Hill High**

by Saahil Gupta

"Bridge tutors have been helping students excel in many subjects. At every session, they spend nearly an hour to help students rather than doing their own homework or worrying

about their studies. I was struggling with finding faster ways to solve a problem involving percentages. I went to Bridge on a Wednesday and a tutor sat with me to help. The next day, I aced my test, all thanks to the tutors who spent time to make me understand."

**Thoughts About
National History Day -
A Unique Middle
School Experience**

by Ali Shakir

"National History Day is by no means something that takes place over one day or several days. It involves months and months of intense work and, by the end, a successful project will total about a thousand hours of work invested by teams of three to six people. It seems like a lot, but it's also fun and exciting. NHD is an extremely interactive experience, providing the chance to make more friends in a few months than one might make in a few years...ask any former participant from Rosa, and he/she could talk for hours about how much excitement and growth was experienced through this club."
