Life Hacks And Essentials For Middle School

By Diana Sosa
Grade 6

Have you ever wondered if there were ANYTHING that you could do to help you with school work? Well, here are a few life hacks for making school easier!

One tip for doing homework is to listen to music. But don't just listen to ANY music, but listen specifically to Hans Zimmer Pandora. It has no distracting lyrics but, best of all, the scores are intended to motivate. -Teen.com

Another essential trick is how to keep an apple from turning brown. Do you pack a lunch and have a parental guardian who is constantly nagging you to pack SOMETHING healthy to eat? "You can pack an apple right?" they say. "No, it'll turn brown."

Make lots of new friends – *Ayza Sayany*

Participate in school activities – *Zahra Fakhri*

Be organized for the entire school year – *Bianca Anghelache*

Establish a good reputation and earn good grades – *Rebecca Sabath*

Do well in sixth grade – *Bryce Hunter*

Write at least 10 articles for the school newspaper – *Bar Leshed*

Try my best in school and get good grades – *Vivian Rong*

Do something to help animals this year – *Faith Jastrow*

Make new friends – *Shyla Murray*

Get straight As – *Christina Wiest*

Well, here is the solution! The solution is simple, but most people wouldn't think of it! All you will need is: an apple- duh- an apple slicer, and a rubber band. First, you slice the apple. Next, you tie the slices with the rubber band to look like a full apple. Last, you can even pack some caramel or peanut butter to dip the slices in! **DISCLAIMER: THE APPLE WILL STILL BE SLIGHTLY BROWN BUT NOT THE WHOLE THING!!!** -athriftymom.com

Our last life hack is: HOW TO REMOVE SHARPIE marks from clothing. All classes probably use sharpies or markers these days, right??

If you are removing sharpie from clothes, then you use hand sanitizer.

Who knew, right?! If you are ever babysitting a little kid, and you accidentally let them get to the sharpie, and they write on the walls, you can use one of the STRANGEST things on this list! You can use TOOTHPASTE or even HAIRSPRAY!!! Lastly, to get sharpie off of furniture, perhaps from a scandalous toddler, you can use MILK! Who knew?! What do YOU want to...

Be a photographer for the school newspaper – *Tori Telschow*

Make new friends – *Nate Royer*
